Light building elements

PCL09940 Round light building element 3.5 m 1 wall / 2 610 lm - 16.8 W
PCL09939 Round light building element 3.5 m 2 offset wall lights 90° / 5 220 lm - 33.6 W
PCL09938 Round light building element 3.5 m 2 offset wall lights 180° / 5 220 lm - 33.6 W
PCL09937 Round light building element 3.5 m 3 offset wall lights 90° / 7 830 lm - 50.4 W

Use
 Light building elements for lighting and/or marking paths, parks and around buildings.

Light distribution 16.8 W

LED light 16.8 W

LED luminaire with asymmetrical flat beam light distribution. Luminaire made of aluminium, powder coated in polyester. Silicone optics offer excellent thermal, UV and impact resistance as well as resistance to dirt, dust and water. Safety class I
 CE Conformity mark
 Protection class IP 66
 Impact strength IK08

Lamp

Luminaire connected wattage 16.8 W + LED strips 7 W
 Luminous flux per luminaire 2 610 lm
 Luminous efficiency of a luminaire 155 lm/W
 Colour temperature 3 000 K (CRI > 80)

Luminaire colour

Standard: DG 119 and Tasilaq sanded
 Option: Matt fine texture 7006 and Tasilaq sanded

Round shaft

Cylindrical shaft in glued laminated timber GL24H certified ACERBOIS GLULAM, produced with sustainably managed forests and respecting HTE process. Timber finished with four coats of woodstain. Cylindrical flush base in galvanized steel and polyester powder coated finish. Overlying top in pressed galvanized steel, polyester powder coated finish. Design and manufacture according to rules defined by DEE 120017-00-0106 Wood and metal lighting columns and specifications from European Technical Approval ETA-18/0016. CE marked product: Conformity certificate CE 0679-CPR-0473.

Standard finishes

Wood: La Mer
 Metal: DG 119 (Matt fine texture 7006 optional). Finish corresponding to the references PCL09940, PCL09939, PCL09938 and PCL09937. Other colours on request.

Benefits

- scots pine heartwood selected
- non-chemically treated wood
- design according to the HTE (High Strength Outdoor) process based on the principle of a shaft reconstituted from four glued laminated timber planks by a double cross-lamination process and guaranteeing a high outdoor performance of the product.

Lifespan

According to our raw material supply specifications and the CSTB, our products have a structural life of 25 years (CE marking).

Maintenance

In order to maintain the performance of the columns and their aesthetics, it is advisable to plan periodic maintenance every 7 years (5 years on sites exposed to the sea front) by renewing the finish. This operation does not require any particular expertise or removal of the columns. Aubrilam can assist you in this process by providing its products, application protocol or technical staff (see the chapter on Wood/Maintenance).

Installation

Luminaire delivered without case, light head not assembled on the shaft. Fixing with 4 HA20/M18 - 400 mm. The lighting fixture must be connected to the earth of the base section thanks to the green/yellow wire provided for that purpose. Anchor bolts supplied on request only.

Technical data can be viewed and downloaded from our website.

Design by AUBRILAM.
